The Dredge-Bont.

During the present week the new dredge-boat has mirably. She was employed for a day or two in throw-ing material upon "Reynolds' Wharf," to fill in a bollow, and this afforded all the world and his wife an apportunity of seeing the practical utility of the machine on which the government money has been so judiciously expended. It is hardly possible to give too much praise to Mr. Hours the engineer, for his single handed exertions in setting up the engine, and training his subordinates in the management of so complicated a piece of work. We understand that he has done all this in one quarter of the time which the engineers at steam-tug is progressing well, and the contractors are cause or provocation. doing their work most faithfully.

The birth of the infant King of Algeria was celebrated on Tuesday noon by the firing of a Royal Salute on board of H. B. M.'s ship of war Alarm. The ship was dressed for the occasion, the English colors flying at the fore, the French at the main, and the Hawaiisn at the mizen mast-heads, and the yards were manned.
